

San Diego Forward: The 2019-2050 Regional Plan Community Based Organizations (CBO) Outreach Network

To reach out to community members who have traditionally been underserved and underrepresented in the planning process, SANDAG partnered with 13 Community Based Organizations from around the region. These organizations have created programs to engage stakeholders from low-income communities, limited-English speaking populations, the disabled community, and seniors to ensure that their voices are heard and that the 2019 Regional Plan is socially equitable.

Urban Collaborative Project (UCP) – The UCP is an inclusive effort through community outreach, by neighborhoods, Town Councils and other neighborhood stakeholders to make safety, civic engagement, health and beautification, a neighborhood practice, making communities more vibrant, informed and connected. All premised on the belief that vibrant neighborhoods are critical to the overall success of our City. Major areas of focus for the Urban Collaborative Project are Community Trauma and Resilience, which includes trauma informed policies, K-12 school support, healthy food access, community infrastructure/placemaking, family support and enhancement, Resident Leadership Training, and inter-organizational Action Teams.

Areas of influence: Southeastern San Diego/ Encanto / Skyline – Paradise Hills
