

San Diego Forward: The 2019-2050 Regional Plan Community Based Organizations (CBO) Outreach Network

To reach out to community members who have traditionally been underserved and underrepresented in the planning process, SANDAG partnered with 13 Community Based Organizations from around the region. These organizations have created programs to engage stakeholders from low-income communities, limited-English speaking populations, the disabled community, and seniors to ensure that their voices are heard and that the 2019 Regional Plan is socially equitable.

Vista Community Clinic (VCC) – VCC’s mission is to advance community health and hope by providing access to premier health services and education for those who need it most. VCC serves the communities of Vista, Oceanside, and portions of the contiguous communities of Fallbrook, Carlsbad, Bonsall, San Marcos, and surrounding unincorporated areas. Founded in 1972, VCC offers one of the largest community clinic education and outreach programs in San Diego County, helping over 100,000 individuals each year to “choose health.” VCC works as a committed and collaborative partner to impact public health policies at regional, state, and national levels.

Areas of influence: Vista, Oceanside, Fallbrook, Carlsbad, Bonsall, San Marcos, and surrounding unincorporated areas
