

5 BIG MOVES // COMPLETE CORRIDORS / TRANSIT LEAP / MOBILITY HUBS / FLEXIBLE FLEETS / NEXT OS

SANDAG Vision Advisory Panel

To support development of San Diego Forward: The 2021 Regional Plan, SANDAG established a Vision Advisory Panel to tap the expertise of Southern California industry leaders and to help meet our goal of developing a strategy for a world-class transportation system that makes the best use of available and emerging technologies resulting in a system that is smart, efficient, and accessible. The Vision Advisory Panel will provide expert input about how to deploy technology solutions to solve complex transportation problems and guide SANDAG leadership on how to best future-proof the transportation system.
